DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The rejections of claims 1-108 under 35 U.S.C. 103(a) as being unpatentable over Rudolph et al. in view of Slezak et al. in view of Peden et al. in view of Mikami et al. in the Office action mailed 09 August 2006 is withdrawn in view of the amendment and arguments on pages 17-18 of the amendment and remarks filed 18 September 2006.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-108 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-108 are indefinite for recitation in independent claims 1, 21, 37, 57, 73, and 93 for recitation of the phrase “applying the plurality of rules to the plurality of past values that are stored in the rule base” because the claims state that the rule base comprises a plurality of rules rather than a plurality of past values. The rejection would be overcome by amending the claims to recite “applying the plurality of rules that are stored in the rule base to the plurality of past values.”

Claims 1-108 are indefinite for recitation of the term “data collected” because it is not clear what the term means. Because the most probable meaning is that the term means “assayed”, the rejection would be overcome if the claims were amended to recite “assayed” or another term that makes the claim more clear.

Art Unit: 1631

Claims 1-108 are indefinite because it is not clear whether the past values are used to identify target characteristics in the past or at some later time.
